Do you have **alopecia**?

We are looking for adult volunteers with alopecia areata, both male and female, to provide samples for research into the causes of *alopecia areata, alopecia totalis, and alopecia universalis*.

Participation would involve one visit to an NHS clinic at the Queen Elizabeth University Hospital or Glasgow Royal Infirmary, where you would complete a questionnaire and donate a sample of blood. Skin and stool samples may also be requested.

For further information and to register your interest in donating samples please contact the research nurse, Fiona Moffat: Fiona.Moffat2@ggc.scot.nhs.uk
